

# Benjamin Kugler

## Senior Full Stack Engineer

Rivadavia 843, Corrientes, Argentina · +54 379 460 6797 · [benjamin.kugler1996@gmail.com](mailto:benjamin.kugler1996@gmail.com) · [LinkedIn](#) · [GitHub](#)

---

## SUMMARY

---

Senior Full Stack Engineer with 7+ years delivering scalable web and data platforms across React/TypeScript front ends and Java/Spring Boot, FastAPI, and Python back ends. Experienced in end-to-end system design, cloud-native deployments on Azure and AWS, and data engineering with Microsoft Fabric and Snowflake. A consistent technical reference — driving architecture decisions, mentoring engineers, and shipping production AI and analytics solutions in regulated, high-scale environments.

## EXPERIENCE

---

### Improving South America

Sep 2019 – Present

*Software consulting firm delivering custom AI, data, and cloud solutions · Distributed teams*

- Progressed from Front-End Developer to Senior Full Stack Engineer, taking ownership of frontend, backend, cloud architecture, and end-to-end system design.
- Acted as a technical reference across multiple international projects — driving architectural decisions, mentoring teammates, and safeguarding delivery quality.
- Conducted technical interviews for Fullstack (Java/Spring Boot and React) candidates across the region.

### ICE Mortgage Technologies

2019 – Present

*Enterprise lending platform · React + Spring Boot + PostgreSQL*

- Built a full-stack enterprise application (React, Spring Boot, PostgreSQL) that processes borrower financial documents and generates analytical reports used by loan officers.
- Designed and implemented a micro-frontend architecture integrated with Spring Boot microservices and PostgreSQL backend services.
- Standardized Docker-based deployments and shared CI/CD pipelines (Bitbucket Pipelines), improving reliability and deployment consistency across internal applications.
- Built Splunk dashboards for the asset-analyzer-api service, improving operational observability and incident response.
- Collaborated with distributed teams across the U.S., India, and Poland, aligning APIs, data models, and release cycles.

### Thirdwishp

Sep 2025 – Present

*AI focus · LLMs, Snowflake, FastAPI, Next.js, Azure*

- Designed and built an AI-powered chatbot leveraging LLMs, Snowflake, and FastAPI for natural-language querying and dynamic SQL generation over large datasets.
- Developed a real-time Next.js frontend supporting conversational workflows, interactive data visualizations, and structured user feedback.
- Deployed scalable microservices on Azure Container Apps with CI/CD for automated builds and environment promotion.
- Delivered a production-grade AI solution supporting advanced analytics and data-exploration use cases.

### MediaPro (Grup Mediapro)

Aug 2025 – Present

*Data engineering · Microsoft Fabric, Power BI, Azure DevOps*

- Built a data-intelligence platform to collect and analyze Microsoft 365 usage data, identifying inactive users and underutilized licenses across the organization.
- Automated ingestion, transformation, and reporting pipelines using Azure DevOps, Microsoft Fabric (medallion architecture: Bronze/Silver/Gold), and Power BI.
- Developed PySpark notebooks in Microsoft Fabric for cash-flow and budget data pipelines, integrating OneStream and SAP Datasphere sources.

- Translated usage and financial analytics into operational decisions with stakeholders, enabling license cost optimization and improved data governance.

## TECH STACK

---

**Languages:** Java, TypeScript, JavaScript, Python, SQL

**Frontend:** React, Next.js, Tailwind CSS, React Query, Redux

**Backend:** Spring Boot, FastAPI, REST APIs, Kafka

**Data & Analytics:** PostgreSQL, Snowflake, Microsoft Fabric, Power BI, Supabase

**Cloud & DevOps:** AWS, Azure, Azure Container Apps, Docker, CI/CD, GitHub Actions, Bitbucket Pipelines, Azure DevOps

**Architecture:** Microservices, event-driven, micro-frontend, medallion architecture

## SELECTED PERSONAL PROJECTS

---

**Ticketera (Corrientes, AR)** — full-stack event ticketing platform for Corrientes, Argentina, with online payment integration.

*Next.js 16, Supabase, Vercel, Mercado Pago*

**Saint Patrick College** — WhatsApp automation (n8n), a student-trip tracking PWA, and an e-commerce store for uniforms/textbooks.

*Next.js 15, Supabase, Mercado Pago, n8n*

## EDUCATION

---

**La Salle — Universitat Ramon Llull, Barcelona, Spain**

2023

*Master's Degree in Software Development and Architectures*

**UTN FRRE, Chaco, Argentina**

2014 – 2021

*Information Systems Engineering*

## CERTIFICATIONS

---

- AWS Certified Cloud Practitioner
